Joint eXtyles/Typefi Customers
Key eXtyles Design Principles

• Authors are content experts. Period!
• Editors prefer Word over XML tools
• Automate repetitive processes safely

Our proven approach

• Increases productivity
• Improves quality
• Lowers costs
Increases Productivity

“Increased automation and a more streamlined workflow with eXtyles and Typefi at the core have enabled us to cut journal composition time by more than half.”

Louise Adam
Production Manager
FASS

Improves Quality

“It's a pleasure to promote eXtyles, as it really does magic in our documents.”

Serge Juillerat
System Specialist
ISO
“In 2009, before Typefi [and eXtyles were] implemented, we produced 120 books and 50 journals annually. In 2012 those numbers have roughly **tripled** to 350-360 books and 145 journals **without additional staff.**”
