TYPEFI®

## Typefi Cloud

Publishing processes today are being pushed to the limit in a rapidly changing hybrid world of print and digital. New channels. New formats. New ways of distribution. And new economic realities at every turn.

How do you adapt? How do you stay ahead? How do you easily bridge the gap between the different formats for print, online and mobile? How do you get to market more quickly and, perhaps more importantly, how do you do all this without breaking the bank?

### *In short, how do you do more for less?*

Introducing **Typefi Cloud** – the world's only single-source publishing platform that fully integrates print, online and mobile production in a seamless, on-demand, end-to-end automated workflow.

The Typefi Cloud managed service offers world-class security and instant access to upgrades and new features. It makes content automation for print, online and mobile faster and easier than ever before. Publish as often and in as many formats as you need, for one project or many. The power of Typefi, in the cloud – exceptionally fast, end-to-end.

### *Designed to work as you do, but much faster.*

Create your content and develop your designs in your usual working environment, store your files on our secure cloud-based server and, when you're ready to publish, simply click a button to run your job through Typefi Cloud and return a finished product in as little as a few seconds.

### **BENEFITS**

- Deliver highly-engaging and beautifully crafted content – *anytime, anywhere*
- Highly scalable, secure, and always ready to do more
- Work closer to deadlines while speeding time to market by more than 50% – without sacrificing design quality
- Assemble, share, repurpose, and publish content while maintaining consistent branding and messaging.
- Expands your reach with robust support for accessibility and multilingual publishing
- Built for business — seamlessly integrate Microsoft® Office with Adobe® InDesign®

### ***Built to perform, from the ground up.***

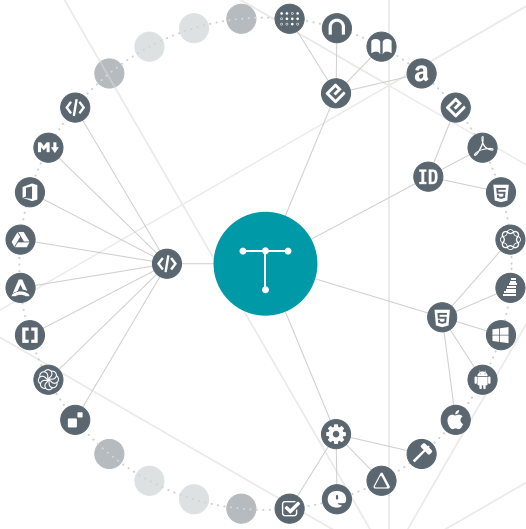

Since Typefi was founded in 2001, we have focused on building a platform that enables our customers to publish more content to more formats, more quickly. We give our clients an unmatched competitive advantage through unique, powerful publishing automation technologies, and unrivalled training and support. Perhaps that's why we're the world's most recommended publishing platform.

We've had really good success with Typefi Cloud. **We have been able to publish three textbooks in a new system in six months.** That's no small feat.
